

Guest and Visiting Faculty

From the Academic Office to all Heads of Department and the timetable coordinator.

- 1. Fixed windows.** Guest faculty teach only in the availability windows agreed in their appointment letter. These windows are fixed institutional commitments and may not be negotiated away by other faculty members.
- 2. Notice period.** A guest lecture may be moved only with at least one week's notice and the written agreement of the guest faculty member.
- 3. Teaching load.** A guest faculty member teaches at most eight contact hours per week, and never more than three hours on a single day.
- 4. Rooms.** Guest lectures are held in lecture rooms with a projector; the Head of Department confirms the room when the window is fixed.
